Hobbies

play football and go to different tech meet ups

Profile

I am a passionate front-end web developer. I love meeting new people and learning about their lives and their background. I can almost always find common ground with new people.

I am an honest person when it comes to meeting new people. I am curious to learn new things and never hesitate to ask a question to learn more. I am also very thankful for the help I got from others and do not hesitate to help back in whatever I can. I am also a team player because I am always ready to give/receive input.

I have a law background back in Ethiopia. Since I came to Europe, I tried to change my career, And it wasn't that easy. But finally, I found something I am passionate about it, which was coding. I love everything when it comes to coding, building apps, getting a new challenge, googling a lot generally, and developing new things is something I enjoy in my life. Now I am looking for a company willing to offer me a placement among their developers. In return, I would offer my full commitment and be a pleasant and friendly addition to your team.

I am, therefore, currently looking for a job as a front-end developer.

Education

Roskilde Tekniske skole, Roskilde

AUGUST 2021 – OCTOBER 2022

I finished main course

Grundforløbe (basic course), Next Uddannelse København, Copenhagen

JANUARY 2021 – JUNE 2021
